GRADUATE DESIGN ENGINEER

Our engineering department currently has an immediate opening for a Graduate Design Engineer.

Use of 3D software to create models and drawings of products is essential.

The Design Engineer will be responsible for carrying out the duties of the Engineering department, including design, research, prototyping, engineering documentation, estimating and process improvement.

The successful candidate will report directly to the Supply Chain Manager and collaborate with design/ purchasing teams, as well as liaising with suppliers and clients to improve designs and manufacture.

This is an excellent opportunity to work in a friendly environment with a team that is dedicated and passionate about craftsmanship.

Possible travel to China.

The position is full time (39 hours per week) Monday to Friday.

Salary will be dependent on experience.

To apply for this position, please email your CV to rphillips@novacast.co.uk or post to:
