

FOUNDRY PROCESS WORKER

Due to the substantial growth of the business NovaCast are looking to recruit a full-time foundry process worker who will be based at our foundry in Melksham. This is an exciting opportunity to work within a growing business that is investing in the latest foundry technologies and systems.

An individual with previous foundry or manufacturing experience is preferred, although full training will be provided to the right candidate. Working within a foundry can be physically demanding and will involve lifting and working with molten metal.

Responsibilities:

- Running and maintaining the furnaces
- Assisting with the pouring of the metal
- Assisting with the moulding process
- Moving castings to various process stations throughout the foundry
- General cleaning and maintenance of equipment and the foundry itself

Preferred Attributes:

- Diligent, with an eye for detail
- Ability to work as part of a team
- An interest in manufacturing, machining and foundries
- Good communication skills
- Ability to maintain and follow stringent health and safety protocols

Hours: 39 hours per week – 6.30am – 4.45pm - Monday – Thursday (Overtime as and when required)

Holiday: 23 days plus ban holidays

Pay: On Experience.

Bonuses based on company performance

To apply for this position please email your CV to rphillips@novacast.co.uk
