

## **QUALITY TECHNICIAN**

Due to the substantial growth of the business NovaCast is looking to recruit a full-time Quality Technician who will be based at our foundry in Melksham. This is an exciting opportunity to work within a growing business that is investing in the latest foundry technologies and systems. An individual with previous manufacturing experience is preferred.

### Responsibilities:

- Support and maintaining the QMS to ISO9001 standard
- Improving existing quality procedures
- Conducting external and internal audits
- Ensure all process documentation and work instructions are relevant and correct
- Reviewing final reports and comparing properties to requirements (Dimensional reports, EN 0204 Cert 3.1. etc)
- Working with the engineers to overseeing product development procedures to identify deviations from quality standards
- Keeping accurate documentation and performing statistical analysis (KPI)
- Dealing with customer and supplier directly with quality issues
- Control of non-conformance and implement corrective actions
- Monitoring of the gauges register and ensuring calibration of equipment
- Inspection of parts when needed

### Requirements:

- With a strong interest in Quality / Engineering Process
- Proficient in MS office (Word, Excel)
- Good interpersonal communication skills
- Ability to work in a team and independently
- Good analytical skills
- Min 1-year manufacturing industrial experience (ideal)

Full Time Position (39 Hours) Monday (8-4:30) to Friday (8-3:30)

Salary: up to £30,000 per annum dependent upon experience

20 days plus bank holidays + 3 days for Christmas holiday

Bonuses based on performances.
